FLURRY IN COALERS

SOME INTEREST IN OTHER LINES -MONEY RATE STIFFENS.

New York, Sept. 11.-There was a arger attendance of the members of the stock exchange at the opening of board this morning than for severnonths past. This was due partly the returning tide from summer vaectation among brokers and operas which was not realized, that a renewal of interest in securities was bout to be shown. London bought on moderate scale here, that market benoderate scale here, that market begeneouraged by continued ease of
geney, and this helped the recovery
on the opening decline here. The ensiasm of the professional traders
as short-lived, however. They cred a slight flurry in the coalers,
trking up New Jersey Central 2½
d Reading first preferred a point on
prevalent belief that a way would
found to adjust the differences of
miners and coal operators. They the miners and coal operators. There was some short covering in Sugar, People's Gas and Brooklyn Transit, these three stocks maintaining their conspicuous position in the trading. The better comprehension of the extent of the Texas disaster and St. Paul's decreased earnings proved depressing factors and helped to overcome the early advance. The closing sizes showed few important changes. iners and coal operators. showed few important changes orices showed few important changes. A stiffening in the rate for call loans of 2 per cent attracted attention to the cossibilities of a money squeeze during the autumn. The rate fell back to 1/4 per cent when the banks came into the stock exchange with the unplaced balances late in the day. The prevalent case of money is evidently due to the exceedingly scanty demand and acceedingly scanty demand and active speculation will probably rapid inroads upon the resources the banks.

The pond market was quiet and fea-reless. Total sales, par value, \$940,-
